

media art collective halcyon
has produced original and experimental
realtime computer art for over a decade.

the DVD offers all the
productions from the group's
past until the latest achievement
in 2002.

extras consist of audio commentaries,
biographies, audio commentaries,
tracks for each production, contact
fact subtitles and a bonus tour
which includes sought after
and rare productions.

this DVD celebrates the twelve year
journey that started innocently enough
with testing computer hardware and
what has evolved into a venture into
art and self expression through
electronic media.
